

Kits

The KBSound® radio amazes and captivates you. It can be easily installed in the ceiling or a kitchen or bathroom fixture as simply as if you were installing a halogen light. The kit includes all the components required for installation: power supply with FM tuner, loudspeakers, cables and remote control device.

The independent audio control units of the 400 and 100 Series offer a multitude of possible combinations to suit installations requiring unique solutions.

Kbsound® Select

Kbsound® Select

**KBSOUND®
SELECT**

The radio that you enjoy but don't see.

Installed in the ceiling or fixture, just like any other accessory, it is nearly invisible. It's bi-directional remote control, based on exclusive and proprietary EIS technology, with a contemporary design makes it perfectly suited for kitchens and bathrooms.

Intuitive and simple operation with a screen that displays stations and functions.

IR receiver and transmitter built-in to loudspeaker to facilitate installation.

Kbsound® Select

Music sound system with built-in FM tuner with a built-in FM tuner. 1.5+1.5W stereo output.

Remote control unit equipped with a screen to display functions and direct key-in of FM station frequency. Automatic seek and save of stations with optimal reception. Memory holds 30 stations.

Two 2.5" loudspeakers with IR receiver/transmitter built into the loudspeaker grille.

Accessories:

- Antenna wire (76 cm.)
- Parallel loudspeaker cabling (10 m.)
